

spot7probe-02

short temperature and humidity probe

The spot7probe-02 is an industrial digital temperature and humidity sensor, designed to meet the needs of all industrial environmental monitoring scenarios and including adjustable alarm thresholds for temperature and humidity.

KEY FEATURES

- short temperature and humidity probe
- dustproof and fog-free
- PE protective cover
- Wirepas mesh technology (2.4 GHz)
- easy to fix permanently to wall or ceiling with included mounting bracket
- transmission range up to 200 m (open range)
- adjustable alarm thresholds for temperature and humidity
- cyclical storage
- OTA support
- protection level: IP64

samples in stock, available on request

SPECIFICATIONS

Dimensions	Φ15,5 x 30,5 mm
Weight	103,1 g
Operating temperature	-30°C to +70°C
Power supply	2.700 mAh lithium battery, lifetime up to 3 years (default)

VOLUME PRICING

Quantity	EUR / pc
1 – 100	80
101 – 500	70
501 – 2.000	65
